# Mohammed AbdelSalam Helaly

UX/UI Designer | Product Designer

Egypt | +201014689808 | ma.helaly2003@gmail.com | **Linkedin** | **My Portfolio**

Versatile and AI driven UX Design professional with a proven track record of transforming concepts into user-centric, visually appealing, and highly functional digital experiences. Adept at leveraging a strategic blend of creativity and technical expertise to drive innovation and achieve business objectives.

## EXPERIENCE

**Supercommerce** — *UX/UI Designer* *April 2025 - Present*

- Introduced new features in the company's KMM System that reduced development time by improving design-to-dev handoff efficiency and collaborated in cross-functional design reviews to align stakeholders on user-centered solutions and maintain brand consistency.
- Redesigned core product flows, resulting in a noticeable improvement in task completion rate and a smoother user journey by more than 92%
- Maintained design systems to ensure consistency and efficiency across web and mobile platforms.
- Collaborated with product managers, developers, and stakeholders to define product requirements and design solutions.
- Drove end-to-end UX initiatives for an AI-powered enterprise e-commerce features, leading discovery, competitive analysis, and feature design aligned with regional business needs.

**Alex Logistics** — *UI Web Designer* *July 2023 - December 2023*

- Drove a full website UX/UI redesign that simplified workflows, improved content structure, and strengthened brand credibility online.

**BeSmart Solutions** — *Junior UX/UI Designer* *October 2021 - September 2022*

- Contributed in the company's initial UX/UI foundation by introducing design system principles, reusable components, and structured design workflows.
- Defined early UX processes and component frameworks, helping standardize product design practices

## EDUCATION

**Bsc. Computer Science (Software Industry and Multimedia)** — *Alexandria University* *October 2021 - July 2025*

- Gained a strong foundation in computer science principles with a focus on software development, user experience, and multimedia technologies. The program covered areas such as programming, databases, web development, human-computer interaction, and project management.

## TECHNICAL SKILLS

- **Product & UX Strategy**
  UX Research • Discovery • Information Architecture • User Flows • Journey Mapping• Heuristic Evaluation • CRO Thinking
- **Interaction & Interface Design**
  Mobile & Web UX • Wireframing • High-Fidelity Prototyping • Accessibility • Usability Principles • SaaS Product Design
- **Design Systems**
  Design Systems Architecture • Components • Auto Layout • Design Tokens • Variables • Scalable UI Patterns
- **AI-Augmented Design**
  AI-Assisted Workflow • Prompt Engineering • Figma Make • AI Research & Ideation
- **Technical & Collaboration**
  Developer Handoff • Design QA • HTML/CSS Fundamentals • Agile Collaboration • Product Documentation
- **Tools**
  Figma • FigJam • Adobe Creative Suite • Apps Adobe XD • Sketch • Notion • Jira • Webflow • ChatGPT • Claude • Gemini

## CERTIFICATIONS

**IxDF Certificate: AI For Designers** — *IxDF - Interaction Design Foundation* *November 2025*

- Explores AI-augmented design workflows, prompt-driven UX creation, and human-AI interaction principles, reflecting readiness for emerging AI-integrated product design practices.

**Google UX Design Professional Certificate** — *Google* *September 2022*

- Demonstrates end-to-end UX design competency including user research, wireframing, prototyping, usability testing, and iterative problem solving aligned with industry UX methodologies.
